

II. General INTAS project workshop, Dubna, 24-25. February

Thursday 24.2

9.30 Welcome, I.Meshkov

9.45 INTAS project overview (20+10), O. Boine-Frankenheim

10.15 Status of the betacool code and library (30+15), G. Trubnikov

11.00 Coffee break

11.30 IBS Analysis in Rings with Coupled Transverse Oscillations (20+10), P. R. Zenkevich

12.00 Calculation of HESR beam parameters with different models (20+10), R. Hasse

12.30 Lunch break

14.00 Upgrade of the MOCAC Code and Creation of Library Modules (20+10), A. Ye. Bolshakov

14.30 Target effects, simulation and library (30+30), I. Kadenko

15.30 Coffee break

16.00 Formation of polarised antiproton beam for HESR p-p-bar collider (20+10), E. Syresin

16.30 Beam dynamics for PAX experiment (20+10), A. Smirnov

17.00 open discussions

19.00 Welcome "supper" in café "Hizhina"

Friday 25.2

9.00 INTAS experiments at COSY (30+15), A. Lehrach

9.45 Results of the joint BNL/INTAS experiments at CELSIUS (30+15), A. Sidorin

10.30 Coffee break

11.00 HESR lattice design (20+10), Y. Senichev

11.30 Collective instabilities and impedances (20+10), O. Boine-Frankenheim

12.00 lunch break

14.00 Preparation of the periodical INTAS report, all

15.00 Work program for the second year, all

17.30 End

18.00 Reception in cafeteria of BLTP.
